INTRODUCTION

The Bike the Mountains Tour rises from the town of Littleton, Colorado and explores the Colorado Front Range. Our tour crosses the Continental Divide twice, giving you the opportunity to bike the highest paved roads in the United States. This tour is a classic showcase of Colorado's Rocky Mountain scenery.

Not designed for the weekend cyclist, this tour is offered only for those fit enough to ride high mountain passes. We provide sag wagons and support. Your lodging and meals are also part of the registration fee. We guarantee tough climbs, amazing sights, sweaty jerseys, and lots of fun.

This is the seventh year we've offered the Bike the Mountains Tour. It is our most popular tour and riders are returning again and again. Our experienced tour leaders will be there to guide, help, encourage, draft, and lead you every stroke of the way. Come join us!

ITINERARY

Day 1

We start from the foothills above Littleton, Colorado, promptly at 9am. Be sure to fuel up at Kate's House of Pancakes before starting your ride. The first day is a chance to get your legs in shape, test your gearing, and prepare for what's to come. Be aware that there are several steep grades as we climb out of the valley into the Front Range. Optional side tours and shortcuts will be provided.

Day 2

Day 2 starts with a climb up Bear Creek Canyon to Lookout Mountain, followed by a swift and winding descent into the town of Golden. Refresh yourself at the famous Coors Brewery. You'll need the break to get yourself ready for a great climb through Golden Gate Canyon to the Peak to Peak Highway, ending in the gambling town of Blackhawk. Try your hand at poker and blackjack, but watch your wallet.

Day 3

Day 3 takes you along the Peak to Peak Highway. Established in 1918 this is Colorado's oldest scenic byway. This 55-mile route showcases the mountains of the Front Range, providing amazing vistas from Golden Gate Canyon State Park to Rocky Mountain National Park. We'll stop at Estes Park for fun and refreshment. Get a good night's sleep; you'll need it the next day.

Day 4

Now for the supreme challenge: Day 4 brings some real high-altitude cycling through Rocky Mountain National Park and up Trail Ridge Road. It's an amazing ride, high above timberline, topping out at over 11,000 feet. Stop and rest at the Alpine Visitor's Center before all of that hard work is rewarded with a fast and joyous descent into the town of Grand Lake.

Day 5

We start Day 5 on the west side of the Continental Divide. From Grand Lake, you'll bike to Winter Park, a great ski town summer resort. From Winter Park it's a steady and scenic climb over Berthoud Pass, and back to the eastern side of the Continental Divide. We'll stay at Idaho Springs, where you can enjoy the natural hot springs at the hotel.

Day 6

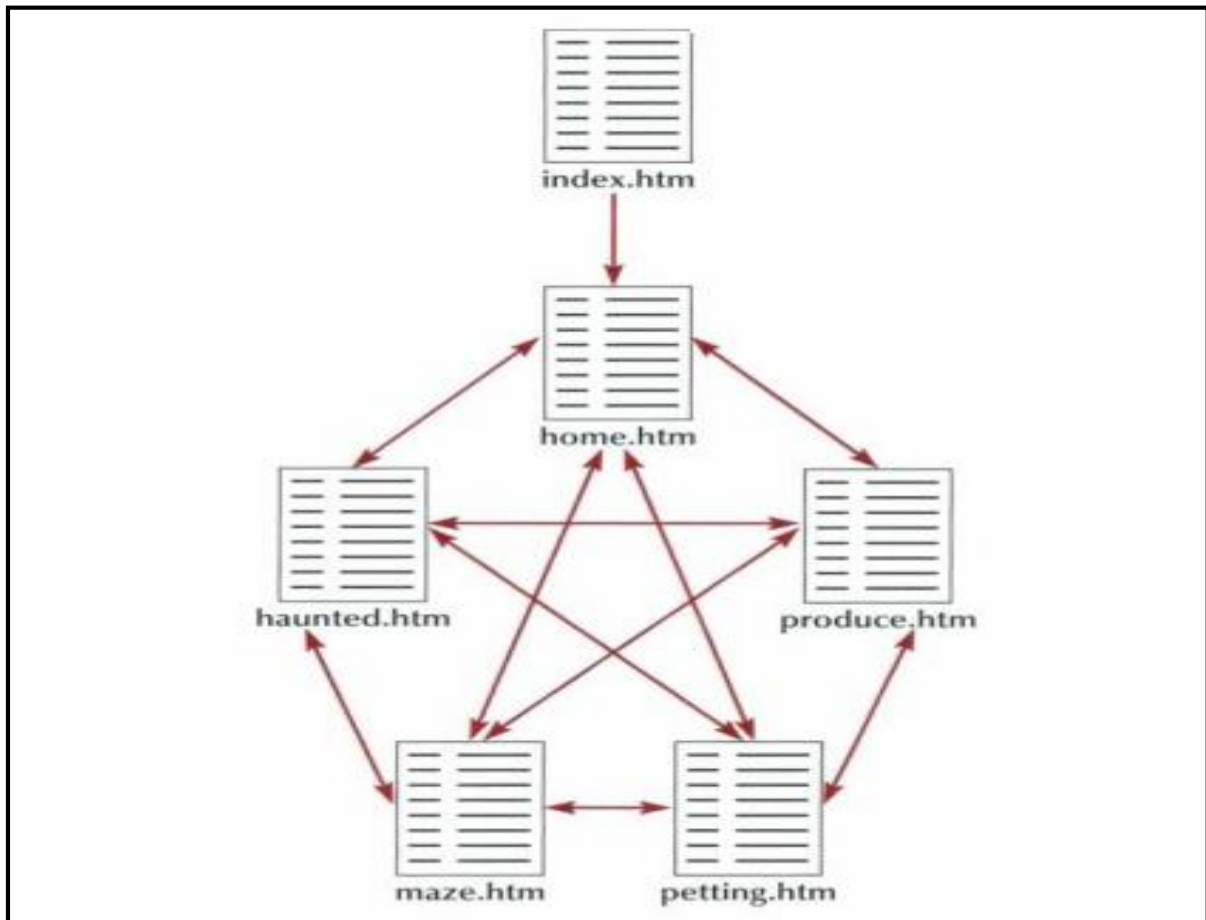

On Day 6 choose your pleasure or your poison. You can ride back to Littleton over Squaw Pass and Bear Creek. The ride is beautiful and enjoyable in its own right. However, if you're "up" to it, this is your opportunity to tackle Mount Evans. The 7-mile side trip to the top of Mt Evans, at over 14,000 feet, is something that can't be found anywhere else in the country. We'll provide the sag wagon, you provide the legs and lungs.

Once you're back to Littleton, please join us for a celebratory dinner as we share memories of an amazing 6 days of riding the Colorado mountains.

Bike the Mountains Tour • Littleton, CO 80123 • (303) 555 - 5499

Case 3:

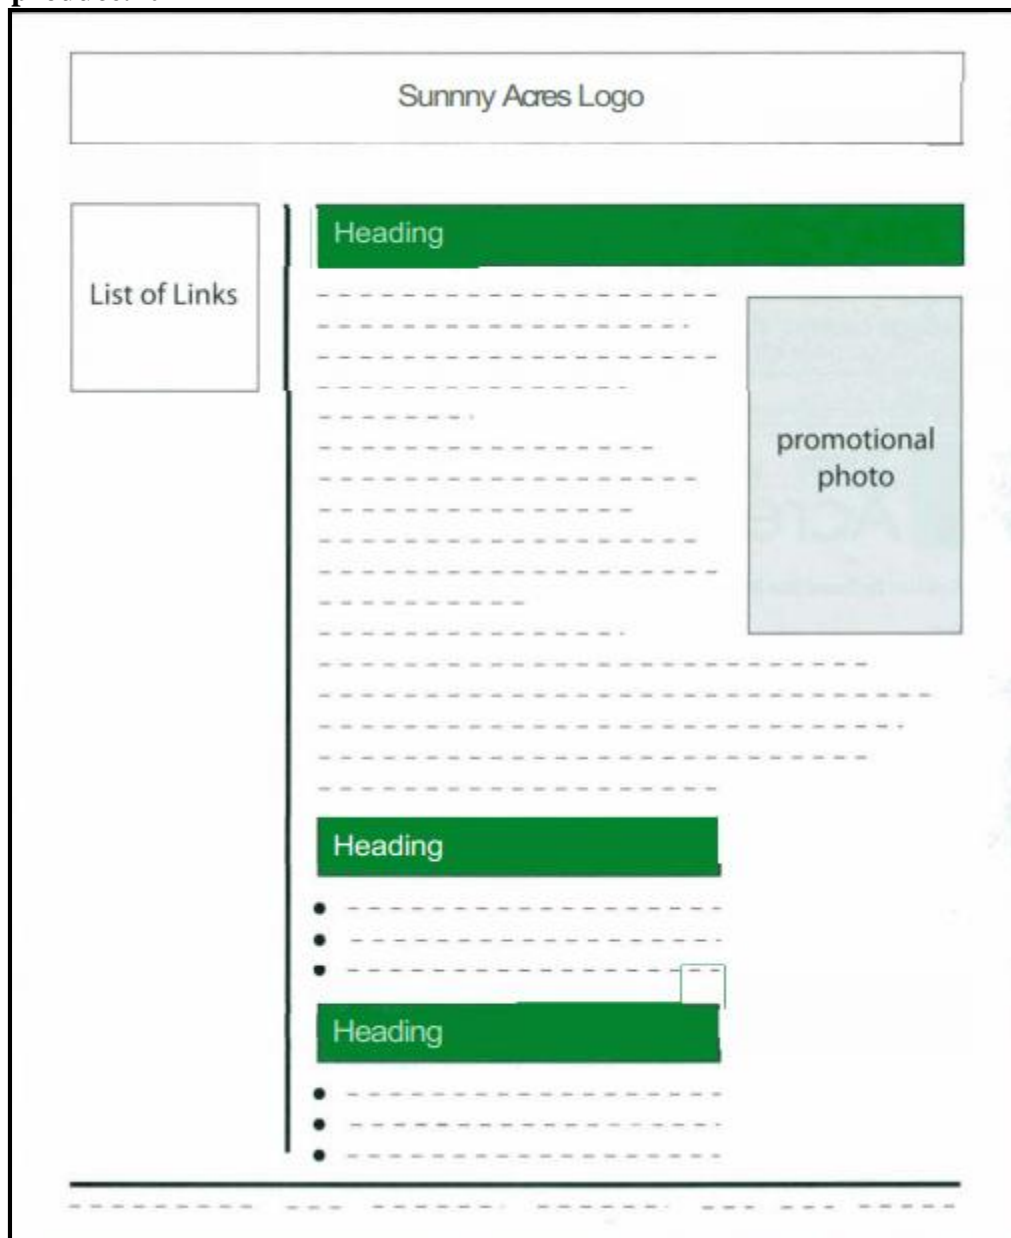

Yêu cầu: Mô hình liên kết của case3 như sau:

1. Trong folder tutorial03/case3 chứa các file **farmtxt.css**, **home.txt**, **index.txt**, **maze.txt**, **haunt.txt**, **petting.txt**, **produce.txt**, **salogo.gif**, **sologo.jpg**, **Siggie.jpg**, **background.jpg**, **photo1.jpg**, **photo2.jpg**, **photo3.jpg**, **photo4.jpg**, **photo5.jpg**. Nội dung trong các file .htm đã được tạo trước.
2. Tạo trang **index.htm** với hình nền là hình **background.jpg** và chứa các hình **Salogo.gif** và **Siggie.jpg** như sau (trong đó **Siggie.jpg** là liên kết hình đến trang **home.htm**),

Cấu trúc chung cho 3 trang **home.htm**, **maze.htm**, **hauntt.htm**, **petting.htm**, **produce.htm** như sau:

3. Mở file

home.txt, tạo trang **home.htm** như hình dưới (chèn thêm các hình ảnh tương ứng) với bố cục lại trang thành 3 phần, sử dụng <div>.

- Phần 1: (chứa các liên kết) [<div id= "links">]
 - Phần 2: (phần nội dung) [<div id= "noidung">]
 - Phần còn lại sử dụng <address>
- Làm tương tự cho các file **maze.txt**, **haunt.txt**, **petting.txt**, **produce.txt** tạo thành các trang **maze.htm**, **haunt.htm**, **petting.htm**, **produce.htm**
 - Mở file **farmtxt.css** tạo các style cho trang **home.htm** như hình sau:

Gợi ý các style:

- **body** (*background, color, font-family*)
- **h2** (*width, padding-left, font-size, font-style, letter-spacing, text-indent, background-color*)
- **h3** (*width; padding-left, background-color*)
- **address** (*text-align, border-top, padding-top, clear:all*)
- **a: link, a: visited, a: active, a: hover**

- `#links(float, width, background-color, border-style, border-width)`
- `#noidung(margin-left, padding-left, boder-left,)`

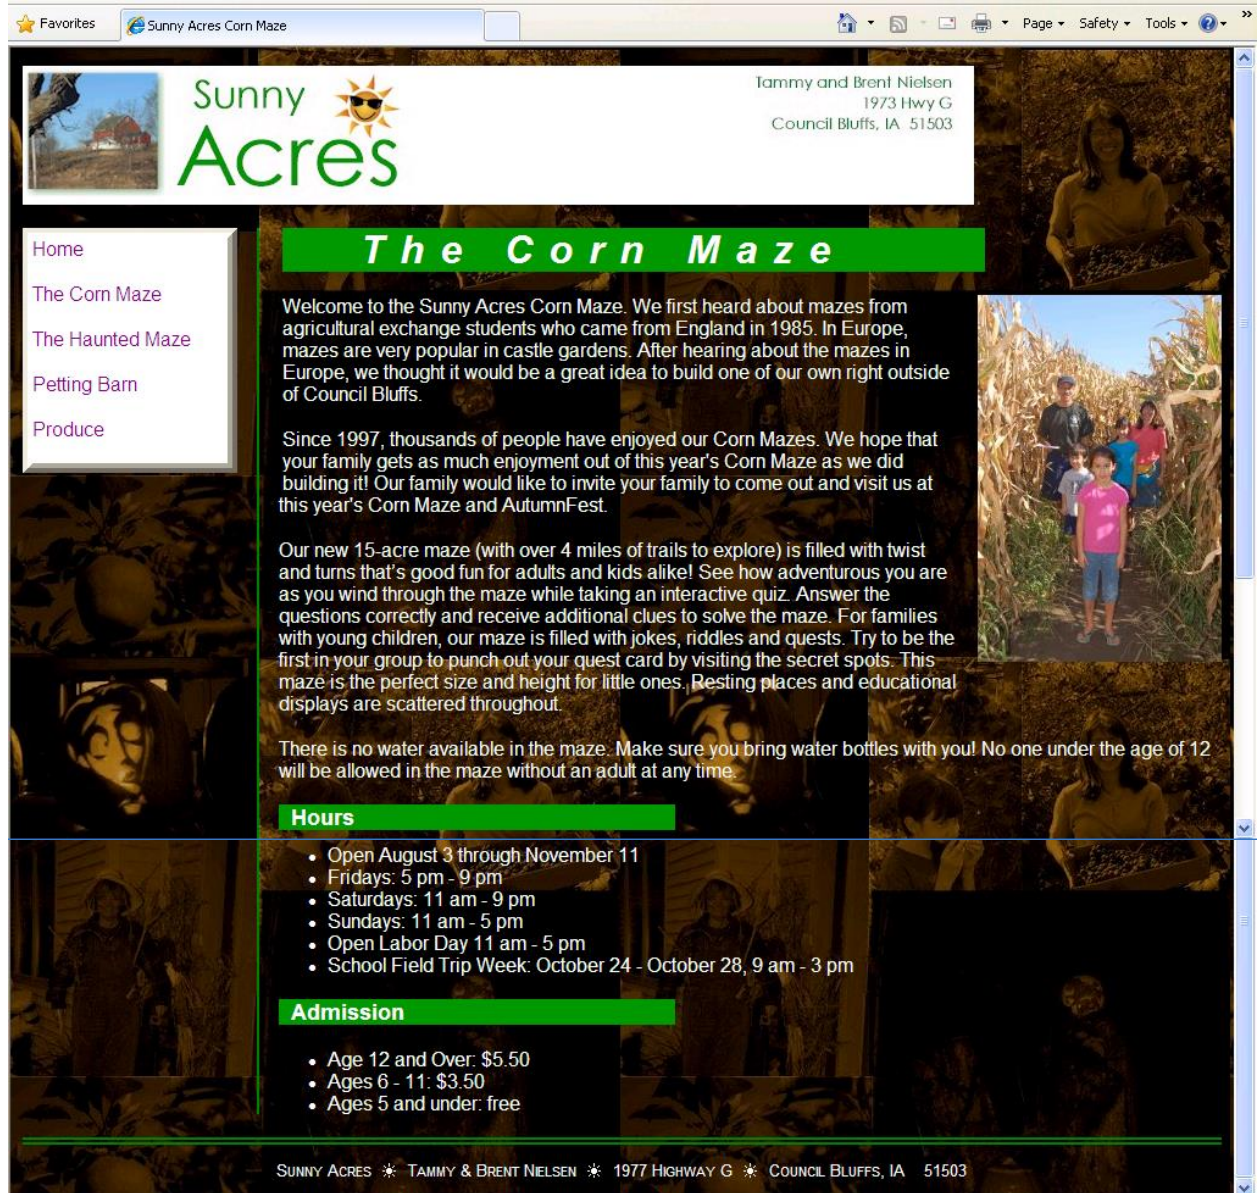

Nhúng file farm.css vào tất cả các trang .htm.

`<link rel=stylesheet type=text/css href=farm.css>`

home.htm

Tương tự cho các trang còn lại như trang *maze.htm*

Case 01: Trong case01 chứa file astrotxt.html, lưu lại với file astro.html, sử dụng các kiểu style sheet đã học định dạng như trang sau:

Maxwell Scientific
school science supplies and more!

Astronomy

Maxwell Scientific provides a wide range of astronomical products — perfect for classroom demonstrations and projects. Choose from the finest equipment from Newton,TM DC Optics,TM and StarVision.TM

Featured Astronomical Products

- **Refractor Kit:** March Special! Learn about the science of optics by building your own 18" long, 3X refractor telescope. Price \$10.95. Stock Number: RK01-085
- **NightDisk:** 13" View the night sky for any night and time of the year with the attractive and useful star disk. Price \$19.95. Stock Number: ND25-100
- **Constellation Globe:** A beautiful two-way illuminated globe displaying the location of the constellations and various night sky objects. Price: \$49.95. Stock Number: CG13-810
- **Star and Planet Locators:** A pack of 25 star and planet locators — perfect for classroom use. Price: \$29.95. Stock Number: SL25-271
- **Rechargeable Red Flashlight:** A 4" rechargeable flashlight, employing a red LED to preserve night vision. Price \$15.95. Stock Number: RF02-421
- **Classroom Planetarium:** March Special! Planetarium kit projects more than 300 stars and constellations onto the ceiling or wall. Perfect for classroom use. Red star flashlight included to point out individual stars. Price \$34.95. Stock Number: CP21-789
- **Solar Mobile:** The sun and all nine planets are represented in this attractive mobile. Mobile measures 4 feet across when assembled. Great for classroom demonstrations! Price \$14.95. Stock Number: SM4-411
- **Solar Mobile Kit:** Kit includes 12 styrofoam shapes with wire and connecting rods to create a hanging mobile of the solar system. Makes 20 mobiles. Instructions and lesson plans included. Price \$29.95. Stock Number: SM5-411

Run the Messier Marathon

It's time for the annual Messier Marathon. Instead of lacing up their Nikes, amateur astronomers will be hauling telescopes, star charts, and a hefty pot of coffee in an all-night vigil hunting the Messier objects.

Messier objects are stellar objects, classified by astronomer Charles Messier in the 18th century, ranging from distant galaxies to star clusters to stellar nebula. Now is the only time of the year in which all 110 Messier objects are in the sky. Unfortunately, if you want to see all of them, you have to start looking right after sunset and continue until just before sunrise — hence the term, "marathon>."

Ironically, Charles Messier wasn't all that interested in his objects. He made the list in order to avoid seeing them. Messier was more interested in discovering new comets and these beautiful stellar objects kept getting in the way.

Comments From Our Astronomy Customers

Here at Maxwell Scientific, we strive to deliver high-quality astronomy equipment in a prompt and professional manner. Still, we're as happy as anyone when we receive a compliment!

"Thank you for your excellent service. I purchased the Newton 3" refractor for our astronomy lab. The view of Saturn's rings was exciting moment for the entire class." Dawn Hillbert. San Jose, CA

"I appreciate the prompt delivery of the pack of star disks. Your company is a great boon to science teachers everywhere." Steve Fawson. Cleveland, OH

"The MC5 Maksutov-Cassegrain was delivered as promised: on-time and at a great price. When it's time to get my next scope, I'll look to your company first." Brenda Dicks. Greely, CO
